(54) Title: FIREARM MAGAZINE WITH STATUS INDICATOR

(57) Abstract: A firearm magazine with loading status indicator, the magazine comprising: a housing (1) for storing bullets in a stacked configuration, with an opening (6) for receiving the bullets (5); a follower (3) for supporting the bullets within the housing, movable along the housing and resiliently pressing towards the opening, so that at any time, when there exist at least one bullet within the housing it is presented at the opening, ready to be discharged; an indicator having a prominence (7), which in one indication state the prominence protrudes outside the housing and in another indication state the prominence does not protrude outside the housing, wherein one of the indication states corresponds to a state where the magazine is in a full condition, that is when it is filled with bullets up to a maximal capacity, and another indication state corresponding to a state where at least one bullet is missing with respect to full condition.

# INTERNATIONAL SEARCH REPORT

International application No.

PCT/IL03/00933

## A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : F41A 9/25  
US CL : 42/1.02, 1.03

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)  
U.S. : 42/1.02, 1.03, 1.02

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)  
BRS text search (East)

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 784,786 A (GOTTARDI) 14 March 1905 (14.03.1905), Figs. 1, 2 and 4; page 2, lines 96-119	1-2,4-5,13-14,17,19
X	US 5,291,679 A (WOLLACK ET AL) 08 March 1994 (08.03.1994), Figs. 1-3; col. 4, lines 45-67	1-2,4-5,17, 19

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&"

document member of the same patent family

Date of the actual completion of the international search

22 February 2005 (22.02.2005)

Date of mailing of the international search report

15 APR 2005

Name and mailing address of the ISA/US

# INTERNATIONAL SEARCH REPORT

International application No.

PCT/ISA/00933

## Box I Observations where certain claims were found unsearchable (Continuation of Item 1 of first sheet)

This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claim Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☒ Claim Nos.: 20  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claim Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box II Observations where unity of invention is lacking (Continuation of Item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:  
Please See Continuation Sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☒ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.: 1-10,13,14,17 and 19
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

☐  
☒

The additional search fees were accompanied by the applicant's protest.

No protest accompanied the payment of additional search fees.

**BOX II. OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING**

Invention 1 is illustrated in Figs. 2, 3 and 4.

Invention 2 is illustrated in Fig. 5.

Invention 3 is illustrated in Fig. 6

Invention 4 is illustrated in Fig. 7

Invention 5 is illustrated in Figs. 8, 9 and 10.

Invention 6 is illustrated in Fig. 11a

Invention 7 is illustrated in Fig. 11b

Invention 8 is illustrated in Fig. 11c

Invention 9 is illustrated in Figs. 12a and 12b

Invention 10 is illustrated in Fig. 13

Each of the inventions differ from another in a way involving an inventive step in either the location and/or the configuration of the following structure and/or the prominence.
